

Dharampalji's Birth Centenary Celebration: With Book-Release and Greetings from his Close Associates

Shri Dharampal (19 February 1922 – 24 October 2006) was an eminent Gandhian thinker who, with the objective of revitalising India, authored several pioneering works including *The Beautiful Tree: Indigenous Indian Education in the Eighteenth Century (1983), Indian Science and Technology in the Eighteenth Century (1971), Civil Disobedience and Indian Tradition (1971) and Bharatiya Chitta Manas and Kala (1993)*. We have great pleasure to invite you to a special session on 19th February 2022 to mark his birth centenary day. This session will include a book release of the reprint of *The Essential Writings of Dharampal* followed by brief remarks by some of his close associates. We would also welcome members of the audience giving their inputs.
